

**Maintain high  
performance.**

#ScienceHearted

At ARM & HAMMER™ we think big on a microscopic level to deliver safe feed and food solutions that drive business forward. We're your #ScienceHearted, local-and-global, animal and food production team.

## Prepare your birds ahead of challenges.

A-MAX™ contains a high-quality yeast culture that prepares your animals for the demands of growth, production and maintenance.

## The proof is in the research.

In multiple research trials A-MAX supplementation in broiler diets helped meet target weight goals and in layer diets increased egg production numerically.

### The A-MAX advantage:

- 1 Delivers high levels of peptides, amino acids and vitamins.
- 2 Helps consistently meet target weight goals by minimizing feed quality variation.

	FOR BROILERS			FOR LAYERS		
FCR feed/gain	Iran Trial <sup>2</sup>	Bangladesh Trial <sup>3</sup>	Philippines Trial (0.1%) <sup>1</sup>	Egg production rate %	Malaysia Trial <sup>4</sup>	Philippines Trial (0.2%) <sup>1</sup>

### We're #ScienceHearted and we're here for you.

We're ever-curious farm kids turned nutritional innovators, microbial pioneers and food safety game changers. We use scientific research to unlock the power of nature to create products that focus on you, your animals and worldwide food security. To learn more about A-MAX ask your nutritionist, veterinarian or ARM & HAMMER™ representative or visit [AHfoodchain.com](http://AHfoodchain.com).
