

Improve health and maximize performance.

DELIVER A FULL DOSE OF YEAST CULTURE PLUS THE EXTRA POWER OF MOS AND BETA-GLUCANS TO HELP BIND MYCOTOXINS, IMPROVE HEALTH AND MAXIMIZE PERFORMANCE.

- **Immune system prep:** Places the immune system in a state of readiness ahead of a challenge so animals can respond quickly
- **Cost effective:** Provides yeast culture, MOS, beta-glucan and D-Mannose all in one feed ingredient
- **Healthy calves:** Helps reduce incidence, severity and duration of scours in calves
- **Healthy cows:** Helps improve udder health by lowering Somatic Cell Count in lactating cows

FEEDING RATES

	GRAMS/HEAD/DAY					OUNCES/HEAD/DAY				
	Dry & transition cow	Lactating cow	Milk replacer	Calf starter	Heifer	Dry & transition cow	Lactating cow	Milk replacer	Calf starter	Heifer
CELMANAX Dry	56	28		7	14	2.0	1.0		0.25	0.5
CELMANAX SCP	6	3	1	1	2	0.2	0.1	0.04	0.04	0.07
CELMANAX Liquid	28	14	8	8	10	1	0.5	0.3	0.3	0.3

BOTTOM LINE

Ways CELMANAX™ saves time and money, while increasing income and profit:

- Eliminates time identifying sick animals
- Minimizes cows spending time in the sick pen
- Speeds up recovery rates and/or reduces risk or severity of cryptosporidiosis and coccidiosis
- Saves on treatment costs
- Reduces labor/time treating and managing sick animals
- Minimizes risk and severity of mastitis
- Reduces the negative effects on performance caused by mycotoxins
- Boosts milk production efficiency
